During this Covid-19 crisis in Canada, construction for medical and diagnostics is considered an essential service in order to expand healthcare facilities and keep the country functioning while in a state of emergency. We are here to do our part in the fight against this novel virus.

Medical experts & Healthcare workers are calling for urgent construction needs. We have the expertise to address current critical needs:

- Hospital renovations and temporary space expansion
- Temporary labs and treatment facilities
- Protective screening kiosks/stations for entrance
- Nursing and old age home lobby and worker station renovations
- Pop-up facilities onsite for front-line works
- Temporary morgue storage & emergency services

You can rely on us for superior professionalism, integrity and quality workmanship

Why work with us during the Covid-19 Emergency?
